

Dear Families,

2.3.23

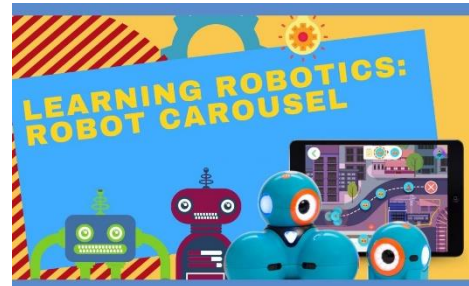

### Robotics sessions

We have booked for Hi-Impact to come in and run robotics sessions for the children next week, on Monday 6<sup>th</sup> March and Friday 10<sup>th</sup> March. Your child will be allocated a session on a day that they attend nursery.

The children will have the opportunity to learn about control and programming, construction and problem solving using a variety of programming apps available on the iPads and various robotic devices.

We can't wait to upload photographs to Tapestry for you to see what we get up to!

### Contribution

We love to be able to provide termly experiences for the children; last term we had Zoo Lab visiting, which was a fantastic treat! *Unfortunately, we had very few contributions towards this, and if we are unable to raise enough contributions for these experiences, it is less likely we will be able to afford to have them termly in the future.* We would like to ask for a guideline voluntary contribution of **£3.50 per child** to go towards paying for these robotic sessions, for which payment can be made through the ParentMail app from today – see ParentMail/shop.

Thank you for your ongoing support.

Kind regards,

Kat Walsh and Jenny Martin (Co-Headteachers)
