

‘ Calling all dads and birthing partners! ’

- A recent survey reported 95% of dads/birth partners wanted more support during the perinatal period.
- The perinatal period refers to the period of time from pregnancy and up to a year following birth.
- We know the first 1001 days of a child’s life, from conception to 2 years, has the most significant influence on their social emotional wellbeing and development.
- Dads/birth partners who feel involved & supported during this time are more likely to feel attached to their babies, form early relationships and protect them from harm.
- IF YOU ARE A NEW DAD/CO-PARENT AND HAVE HAD A BABY IN THE LAST YEAR IN STOCKPORT PLEASE COMPLETE THIS SURVEY.

THIS WILL HELP IMPROVE THE SUPPORT DADS/BIRTH PARTNERS RECEIVE IN FUTURE.
