

What have we been up to this week?

1st December 2017

Dear Parents/Carers

As always we have had a very busy time in nursery this week and winter has well and truly arrived. The children have enjoyed spending lots of time outside and are becoming increasingly independent when getting themselves wrapped up and ready to go out. As we are now having more hats, scarves and gloves in nursery, we would be grateful if all the children's belongings are named.

We have been kept busy in our group times this week practising for our singing and dancing next week. We think you will be very impressed! We have had a dance teacher in school who has been helping us to learn all our dances. She was very impressed with all the children's enthusiasm and commented on how well behaved they are. We were very proud of them. We have also practised walking to and from the church hall and were incredibly sensible.

In the outdoor area the children have had the opportunity to explore ice and frost and have had lots of interesting discussions about the weather. The children have also been busy clearing leaves away!

In our indoor area we have had lots of different sizes and shapes of ice with polar bears in the water tray. The children have been fascinated by the ice and watching as it melts. Some children were thinking about how we could make the ice melt faster, especially when we found some polar bears trapped inside it! There were also some polystyrene blocks in the tray and there has been lots of experimenting with floating and sinking

There have been some amazing pictures created on the whiteboard this week and we have also been using the iPads to take photographs and further enhance our maths sessions.

The nursery has been transformed today and is looking very Christmassy! The children have helped to decorate a Christmas tree with lots of baubles and tinsel.

Thank you for your continued support.

Freshfield Nursery School team
