

# What have we been up to

## this week?

09/03/2018

Dear Parents/Carers

As usual, this week has been really busy and we've done lots of exciting things. We have been busy making Mother's Day cards and enjoyed sharing what we love about our mummies.

Thank you for helping your child prepare for world book day. We loved all the costumes and had a great time sharing our favourite stories and book characters!

It has been cold again this week but we have still enjoyed using the outdoor space and have especially liked making mud pie, leaf soup and stick stew using a range of natural items from around the nursery garden.

In our groups this week some of us have been learning about 2D and 3D shapes and sorting these into different categories. We have also been comparing heights and talked about who is the tallest and who is the shortest in our group. We are continuing our phase 1 phonics and are getting really good at hearing some initial sounds in words.

The children have decided they would like a shop for their new role play this half term. Please could you bring in any empty packaging/bottles for us to use. Please also remember to share any Wow! moments on tapestry, or complete a paper copy, if you get chance.

Thank you for your continued support.
