

"...has come and leaps and bounds during his time at Freshfield. The fun and play based learning has helped massively with preparing him for school in September. His speech and language has improved so much thanks to the input from the teachers. He has grown in confidence with trying to draw and write his letters and numbers. He absolutely adores everyone at Freshfield and can't wait to get in everyday to see all his friends and teachers."

'I'm utterly thrilled at the progress made... he loves Freshfield...(we) would like to place our thanks and appreciation to all the teachers for getting (him) ready for primary school and help moulding him into the lad he is today, thank you!"

"...has loved forest school and sitting around the campfire and having hot chocolate. (She) took what she learnt on our camping holiday and sat toasting marshmallows."

"...has become more confident in making choices and expressing herself more... Freshfield has given (her) the support and encouragement to become the little person she is and I can't thank them enough."

"...has loved every minute of Freshfield and he has thrived here, we only wish he had started earlier!"

"...has gained a lot of confidence and is more independent. She is able to try new things and is able to adapt them in new settings. When she visited her new school she was able to show all these and was very happy. Thank you to all."
