

Parent Overview - Our Curriculum

Our Curriculum (attached): Here you can find information all about what our curriculum entails, how we deliver our curriculum and why we feel this is the best approach for our children. You can also find out about and how our assessment system OPAL works.

OPAL spotlight calendar (attached): We will be sharing your child's progress with you at spotlight moments throughout the year. This simple chart will help you work out when your child's spotlight(s) will be throughout their time at Freshfield. Once their spotlight is complete, we will be in touch with you to discuss their learning and development at Nursery.

Our Overviews of the Early Years' Areas of Learning (attached): In order to support staff and parents in understanding how we support and extend children's learning in each area, we have created documents that share our values, teaching opportunities and links to the continuous provision.

Tapestry: At Freshfield we use Tapestry to share your child's WOW moments and their special time in nature school each week. There will also be weekly bubble updates for both garden and nature bubble, about what they are learning and experiencing each week.

Thank you for your support!
