

Safety in the Sun

24th April 2024

Dear Parents/Carers

Over the next few months, we are expecting some hot and sunny weather and would therefore like to let you know our procedures for the application of sun cream. We use a good quality, high factor sun cream in school and are happy to apply this to children where consent has been given. We are aware that some children may be allergic or have reactions to certain creams; in those cases, we would be happy for you to send a suitable sun cream in with your child (named please so they don't get mixed up) and where consent has been given, we would apply this.

Please could we also ask you to send your child a named sun hat and where possible a legionnaire hat (the ones with the piece covering the neck). We have water available to the children at all times and will ensure they are drinking plenty.

We would like to reassure you that in extreme heat we would always limit the amount of time the children are outside, especially during the strong midday sun.

We would be grateful if you could complete the ParentMail form to confirm your choices as soon as possible, so we are prepared for the sunny weather.

If we are providing the suncream we kindly ask if parents will contribute towards the high cost of good quality suncream by donating £5.00 via the Iris Parentmail app.

Thank you for your valued and continued support.

Freshfield Nursery Team

Safety in the Sun

We will shortly be sending out a ParentMail form that will enable you to choose from one of the following options below. We would be grateful if you could complete this as soon as possible. Many thanks

- I will be sending my own sun cream with my child due to allergies.
- I will apply once a day sun cream that will not need any reapplication.
- I would like Freshfield to apply suncream if needed and reapply as required.
- I am happy to donate £5.00
