

## Parents' Feedback

### Stay and Play Sessions November 2024

Wonderful to see the children thriving in their environment. A real pleasure & insight to be involved in the "Stay & Play"

Thank you for showing us around. Lots of fun!

My child loves staying in school

Thank you for giving us the chance to come and see the kids in their space. My son is very happy here and it feels like a supportive environment. We love that he has the opportunity to explore the space and learn on his own terms but he also comes back and tells us all the things he's done in group and sessions too.

It's so wonderful to see what the children get up to and be able to play in their space for a little bit! Thank you!

My daughter has settled so quickly & easily and is always excited to come to school (especially for nature school days). She arrives and leaves with a smile on her face every day. We couldn't ask for more.

My son LOVES nursery but especially nature school. He comes home and has a lot of stories about playing in the garden and drinking hot chocolate. He loves being outdoors and loves playing with the water. Thank you to all of the staff for taking care of my son the way you do and making his time here so special.
